

Dear Parents and Caregivers,

Thank you for remaining patient and understanding that we are working hard to solve the technical issues surrounding Google Classroom.

This week's learning will remain the same as last weeks – continue to use the learning grid we have provided on the school website, remembering some tasks can be completed and repeated daily. Please remember, there is also a *second*

grid (link; <https://www.eturrensps.sa.edu.au/uploads/files/ETPS@Home/Distance%20Learner%20Matrix.pdf>) which can also be used to inform you student's daily routine.

We are writing to update a few pieces of learning, including Daily Maths activities and some background for our HASS learning.

This link will take you to weeks 2 Maths daily activities.

<https://www.backtofrontmaths.com.au/lessons-bank/b2fmathshome#accordion-1-t2>

Also included are links to some videos which will provide some background on our HASS learning this term concerning Civics and Citizenship, specifically Elections, Voting Systems and Democracy. Students will need to watch the videos and record notes. To help with note taking, consider;

- What did I already know
- What did I *think* I know, but have had corrected?
- What questions do I now have after watching the content?
- What words were used in the video that I have never heard before (try having the subtitles on to help you with this).
- What were some positives and negatives about the *video*?
